Booking an appointment on ActiveNet

Last updated: April 14, 2021

In York Region, COVID-19 vaccinations clinics are offered through a partnership between York Region Public Health, our local hospitals and community partners. Different bookings systems are used to support booking appointments for COVID-19 vaccinations.

To book an appointment at a **York Region Public Health** COVID-19 vaccination clinic, you must use an online system called ActiveNet. Booking a vaccine appointment on ActiveNet is a **two-step process**.

You must first set up an account and then book an appointment.
